Sound and Light Show at the Pyramids: An evening performance at the Giza plateaus, where the Pyramids and Sphinx are specially illuminated to tell their story in the sound and light show. There are two performances each night in different languages, and starting times do vary according to the hour of dusk. Make sure to wear something warm during the winter months.

Fayoum Oasis: The nearest oasis to Cairo, 65 miles south west of the city. Witness a typical country setting with lush green fields set off by vibrant colours with the blend of desert and agriculture atmosphere. By the shores of Lake Qarun, you will visit the Pyramids of Amenemhat III and Senusert II. Differing from typical oases, whose fertility depends on water obtained from springs, the cultivated land in the Fayoum is formed of Nile mud brought down by the Bahr Yussef. Much of the Fayoum Oasis is cultivated, the chief crops being cereals and cotton. The province is noted for its figs, olives and grapes of excellent quality. A number of rose trees are grown from the land, providing most of the roses sold in Egypt.

WHITE DESERT

Located near Farafra, the White Desert is the most distinguished desert destination in Egypt. The quantity of unearthly and beautiful wind-carved rock formations shaped in many different forms is unequalled to any desert in the world. The imagery of the white expanse is reminiscent of polar weather conditions, but with the warmth of the Egyptian sun. Camping in the White Desert is an exotic and unique experience for many travelers. Your escort will set up a tented camp in a remote location prior to your BBQ dinner. Because of the lack of light pollution and smog, there will be ample opportunity to enjoy the celestial sky at night.

THE GREAT MIGRATION

The great migration is an impressive and magnificent marvel that generally occurs during the months of July to October. Approximately 1,300,000 wildebeest, 500,000 Thomson's gazelles, 97,000 Topi, 18,000 elands, and 200,000 zebras migrate from the Serengeti in Tanzania to the Masaai Mara in Kenya in search of water and grass. One of the most precarious parts of the journey is the crossing at the Mara River. Many of the animals are drowned or swept away by the strong currents. Crocodiles also arrive in droves for their share of bounty during this season. For the lucky, the Great Migration may be experienced during their safari game drives.
